PIECES OF MEDICAL EQUIPMENT
DONATED IN THE USA AND HONDURAS

We continue to support medical staff from a remote village on the east coast of Honduras. They recently received a new ultrasound machine and shared that last week alone, three lives were saved because of the donation.

With the partnership between CAMO and Vitamin Angels, over 116,000 women and children received essential vitamin supplements and deworming treatments in 2024.

Victoria was born with hydrocephalus and spina bifida. Her parents were told she would not survive; however, thanks to our neurosurgery program, Victoria defied the odds. CAMO will continue to support her and her family as she grows!

CAMO IN FOCUS

NOV-DEC 2024

TOUR CAMO

Would you like to take a tour of CAMO? Call the office at (330) 683-5956 and see how God is moving by bringing hope to the forgotten.

EXPLORE & LEARN

Visit CAMO's website! See more of what we do and read testimonials of miraculous healing. www.camo.org

HOW YOU CAN HELP

It costs CAMO an average of \$100 to save one child's life. As a donor, service group or church congregation, prayerfully consider helping meet the needs of the poor.

BECOME A CAMO VOLUNTEER

We welcome adult volunteers of all ages and skill levels. Please call CAMO and use your gifts and talents to make a difference in the lives of so many.

THE GASTROENTEROLOGY PROGRAM

In 2024, the CAMO Gastroenterology Program provided 1,090 vital treatments for numerous digestive conditions. With only 25 gastroenterologists in all of Honduras, CAMO is fortunate to have three Honduran specialists generously donating their time to this program. Thanks to donations of essential equipment, materials, and supplies, this dedicated team tirelessly treats both children and adults facing a wide range of digestive health issues.

Aurora, a recent patient, had been suffering from persistent abdominal pain. One day, her condition worsened significantly, prompting a four hour drive to our program. Upon arrival, she was immediately admitted to the ICU for a life-threatening upper gastrointestinal (GI) bleed. Her life was saved through a banding procedure performed by gastroenterologist Dr. Candy Leiva, one of our devoted volunteers. Without this treatment she would not have survived.

Many patients like Aurora require follow-up surgeries to provide vessel banding, a procedure that prevents future bleeding. Unfortunately, these banding kits cost between \$50 and \$200 each, and some patients may need multiple procedures. For low-income families, the initial surgery is often life-saving, but follow-up care can be out of reach due to financial constraints.

Your generous financial and in-kind support ensures that every patient who walks through our doors receives the care they need. Aurora's recovery is just one of many examples of how your contributions directly save lives. We are deeply grateful for our dedicated Honduran volunteers and for your unwavering commitment to making a difference. Thank you for helping us save lives and bring hope to so many in Honduras!

The campaign to sustain health and education of CAMO's services in Honduras aims to secure \$2 million to facilitate the expansion of CAMO's facilities and capabilities. The upgraded facilities will improve medical services and create dedicated areas for training, education, and revenue-generating services.
